Ujjal Tripura *UI/UX Designer*

ujjal.tripura015@gmail.com | 01778490577 | Dhaka, Bangladesh | behance.net/ujjaltripura015

SUMMARY

UI/UX Designer with 4 years of experience designing user-centered digital products across healthcare, enterprise, automotive, and e-commerce domains. Experienced in user research, usability testing, information architecture, user flows, wireframing, prototyping, high-fidelity UI design, and design systems. Skilled at translating complex business and user requirements into intuitive, accessible, and scalable digital experiences while collaborating closely with developers and cross-functional teams.

PROFESSIONAL EXPERIENCE

Healthcare Information System Ltd, *UI/UX Designer* 01/2025 – Present
Dhaka, Bangladesh

Designed and enhanced web and mobile healthcare platforms with a strong focus on usability, accessibility, and user experience. Conducted user research and usability testing to identify user needs and translate insights into effective design solutions. Created user flows, wireframes, interactive prototypes, and high-fidelity UI designs using Figma. Collaborated closely with developers and cross-functional teams to ensure accurate, pixel-perfect implementation while maintaining consistent design systems and accessibility standards.

NEC Group, *UI/UX Designer* 09/2023 – 06/2024
Dhaka, Bangladesh

Designed intuitive and engaging interfaces for digital products across multiple domains, translating complex business and user requirements into simple, user friendly experiences. Collaborated closely with cross-functional teams to improve product usability and deliver effective design solutions. Created high-quality design assets, prototypes, and visual interfaces using Figma and Adobe Creative Suite while maintaining consistency, usability, and visual quality across products.

eCarnivalBD, *UI/UX Designer* 05/2022 – 08/2023
Dhaka, Bangladesh

Designed intuitive and engaging web and mobile applications with a strong focus on usability, accessibility, and user experience. Developed user flows, wireframes, interactive prototypes, and high-fidelity interfaces to translate business requirements into effective digital experiences. Collaborated closely with developers and cross-functional teams to deliver implementation-ready designs and continuously improve product usability, user engagement, and overall experience.

EDUCATION

Masters of Marketing, *National University of Bangladesh* 03/2021 – 07/2022
Dhaka, Bangladesh

SKILLS

UX Design | UI Design | Prototyping | Wireframing | Design Systems | User Research | Figma | Adobe XD | Paper | Adobe Photoshop | Adobe Illustrator

PROJECTS

Healthcare & Telemedicine Platform
- Designed end-to-end patient and doctor experiences for telemedicine and digital healthcare services.
- Created user flows, wireframes, high-fidelity UI designs, and interactive prototypes for web and mobile.
- Designed key features including doctor consultation, health records, prescriptions, home pathology, family healthcare, and appointment management.
- Developed reusable components and design patterns for a consistent healthcare design system.

Automotive Marketplace & Service Platform
- Designed a digital platform for automotive products, spare parts, vehicle services, and repair-center discovery.
- Created intuitive experiences for product discovery, search, product details, service booking, and customer account management.
- Designed responsive web and mobile interfaces with clear information architecture and streamlined user journeys.
- Focused on improving product discoverability and simplifying automotive service interactions.

Inventory & Repair Management System
- Designed enterprise workflows for inventory, stock management, purchasing, sales, warehouse operations, and repair services.
- Created dashboards, tables, filters, forms, status systems, and role-based workflows for business users.
- Simplified complex operational processes through structured information architecture and task-focused user flows.
- Built scalable reusable components to support multiple modules and business workflows.

E-commerce Platform
- Designed customer-facing e-commerce experiences for product discovery, search, filtering, product details, cart, checkout, and order tracking.
- Created responsive web and mobile interfaces focused on usability and conversion.
- Designed seller/admin experiences for product, order, inventory, and customer management.
- Developed reusable UI patterns and components to maintain consistency across the platform.
